

When it comes to Safety

- Safety is a top priority within ERS Railways
- Comprehensive training programs for staff
- Annual medical checks for our locomotive drivers
- All wagons leased by ERS are running under the required regime of suppliers being Entities in Charge of Maintenance (ECM)
- Partners within our value chain are chosen based on our safety requirements or trained / advised to adhere to our safety standards
- We are looking for opportunities to take the best practices of both operations to be the safest rail services provider in the Europe.
- We will afford every employee the same safety culture that assures their personal safety.

When safety meets reliability
